Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: Ukrainian. Brand new Book. The textbook contains two parts: the first part is about grammar and the second - about the medical terms. Authors fully described the Ukrainian type of pronunciation of Latin words, the Noun, the Adjective, the Verb, the Pronoun, the Numeral, the Adverb, the Gerund and the syntax. The second part dedicated to terminology of anatomy, diagnostics, therapy, surgery, biology, chemistry and pharmacy. In the textbook implemented a lot of ideas that makes it unique: 1) the grammar is separated from the terminology course - it allows students to learn the rules of classical Latin, and only then learn the course of the natural terminology 2) the intuitive structure of the topics - searching and orientation in the textbook became much easier, 3) it is the first textbook of the subject, which was prepared especially for digital distribution, 4) some topics (eg, "Building interrogative and negative sentences," "Formation names of organic compounds") are missing in other textbooks.
